Level 1 – Fruit and Vegetables

Hi! It's me, Annie!

This is a warmup game called "What is it?".

There are six questions about a fruit or a vegetable. See if you can guess the correct answer.

But first, get a pencil and a piece of paper.

Are you ready? You can do it!

- 1.) This is long, round fruit. It's yellow on the outside and white on the inside. What is it?
- 2.) This is a round vegetable. It's red on the outside **and** on the inside. It's great on a pizza or in a spaghetti sauce; it's delicious in a salad and yummy in a sandwich. What is it?
- 3.) This is a round fruit. It's white on the inside and can be red or green on the outside. Sometimes it's sweet and sometimes it's sour. What is it?
- 4.) This is also a round fruit, but it's **brown** on the outside and **green** on the inside. It's also the name of a bird that lives in New Zealand. What is it?
- 5.) This fruit is also round, with green leaves on the top. It's yellow on the inside and yellow **and** light brown on the outside. Sponge Bob lives in it under the sea! What is it?
- 6.) This is a round vegetable. It's normally white, but it can also be red, and it makes you cry when you cut it. What is it?

Now, I'll repeat the six questions so that this time you can check your answers.

- 1.) This is a long, round fruit. It's yellow on the outside and white on the inside. Do you know what it is? That's right! It's a banana.
- 2.) This is a round vegetable. It's red on the outside **and** on the inside. It's great on a pizza or in a spaghetti sauce; it's delicious in a salad and yummy in a sandwich. Hmm, yum-yum. Do you know what it is? That's right, it's a tomato!
- 3.) This is a round fruit that's white on the inside. It can be red or green on the outside. Sometimes it's sweet and sometimes it's sour. You're right! It's an apple! Very good!

Aunt Annie's here!

4.) This is also a round fruit, but it's **brown** on the outside and **green** on the inside. It's also the name of a bird that lives in New Zealand. Hmm, what is it? Yes, that's right, it's a kiwi. Very good!

5.) This fruit is also round, with green leaves on the top. It's yellow on the inside and yellow **and** light brown on the outside. Sponge Bob lives in it under the sea! Oops! Did I hear *ananas*? That's what it's called in French. Do you know what it's called in English? It's a pineapple!

6.) This is a round vegetable. It's normally white, but it can also be red, and it makes you cry when you cut it. That's right! It's an onion! Well done!

That's it for today.

Bye for now!
